

Methods:

- Used WWF Calc & class results
- DL'd YT history via Google Takeout
- Processed data in R and summarized
- Estimated bandwidth and CO₂ emitted
- Gathered stats
- Sketched (a lot)
- Sketched & scanned final plots

Assumptions:

- No renewables used
- 1080P @ 1.65 GB/hr
- Summary includes audio-only videos
- Summary omits vids over 40 mins
- Summary omits local playback power use
